

Development for Senior Managers

We can work with your senior managers to support them in optimising their own performance and in shaping the future direction and development of your organisation.

We offer

- * Individual coaching - your senior managers will benefit from the opportunity to review their performance, build self-awareness and set goals for the future in a confidential and time effective way
- * Workshops around strategic planning and managing change, giving your senior managers the opportunity to review your planning processes and to consider alternative approaches and models
- * Facilitation of senior management events such as strategic planning or policy development away days

We can run one-off events for you or put together a longer term senior management development programme.

All our work includes a follow-up and evaluation service so that you can see how your investment in your senior managers has been beneficial.
